

CS 294-165: Sketching Algorithms

TYLER ZHU

September 23, 2020

"A good stock of examples, as large as possible, is indispensable for a thorough understanding of any concept, and when I want to learn something new, I make it my first job to build one."

– Paul Halmos.

These are course notes for the Fall 2020 rendition of CS 294-165, Sketching Algorithms, taught by Professor Jelani Nelson.
